

STATE OF FLORIDA
DEPARTMENT OF HEALTH
BUREAU OF RADIATION CONTROL

LOW-LEVEL RADIOACTIVE WASTE TRANSPORTATION PERMIT

PERMIT HOLDER

Name: **THOMAS GRAY AND ASSOCIATES, INC.**

With reference to permit fee paid
August 11, 2008

Address: **1205 West Barkley Avenue
Orange, CA 92868**

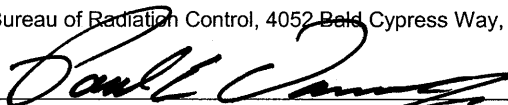

Expiration Date: **August 11, 2009**

Pursuant to subsection 404.20(6), Florida Statutes, and section 64E-5.1509, Florida Administrative Code (F.A.C.), you are hereby issued a low-level radioactive waste transportation permit with the following conditions:

1. This permit is not transferable nor assignable to any person other than the permit holder referenced above.
2. The permit holder is required to comply with Part XV of Chapter 64E-5, Florida Administrative Code (F.A.C.), and the regulations of the U.S. Department of Transportation.
3. Refer to section 64E-5.1509, F.A.C., for a description of specific permit requirements. **Be advised that paragraph 64E-5.1509(2)(a), F.A.C., states that before any shipment of low-level radioactive waste may be transported into or through the state, the permitted carrier shall give written or telephone notification to the department not less than 48 hours prior to the date of arrival of the shipment at the borders of the state.** All prior notifications of impending shipments shall be addressed to the Department of Health, Bureau of Radiation Control, P.O. Box 680069, Orlando, FL 32868-0069; telephone (407) 297-2095. The following information must be provided in the notice:
 - A. The expected date and time the shipment will arrive at the borders of the state;
 - B. The estimated time the shipment will remain in the state;
 - C. An estimate of the radioisotopes contained within the shipment;
 - D. An estimate of the total activity, in curies, contained within the shipment;
 - E. An estimate of the total volume, in cubic feet, contained within the shipment; and
 - F. The proposed route over which the shipment will be transported.

The carrier must immediately notify the department of any cancellations or changes of information provided in the prior notification, such as changes in the date of shipment arrival, the length of time the shipment will remain in the state, or the description or quantity of the radioactive waste contained within the shipment. Grounds for suspension of a permit may include failure to include the information requested pursuant to 64E.5.1509(2), F.A.C.

Should you have any questions concerning your permit or the transportation of radioactive waste in the state of Florida, please do not hesitate to contact our office at (850) 245-4545 or write to Bureau of Radiation Control, 4052 Bald Cypress Way, Bin # C-21, Tallahassee, FL 32399-1740.
